

James F. Etro (Jim)

Mr. Jim Etro is founder, and CEO of Itri Corporation.

He also founded Agrarius LLC in 2005 and merged it into Itri Corporation in 2011.

Jim has over thirty five years of management and leadership experience in the US Navy and in private enterprise. His most recent experience is in establishing and directing product and services oriented business. Prior positions in private industry and in the US Navy have allowed him to practice concept development, program planning and funding, technology development, system prototyping, establishing information technology and enterprise systems, and in implementing a line of products. He has also provided operational weather and oceanography support and advice to military and civilian activities in the US and around the world. Mr. Etro is an honest and ethical leader with vision, and he has the skills and the tenacity of purpose to make vision a reality.
